

Tow Law Millennium Primary School

Foundation Stage Policy

Introduction

The Foundation Stage applies to children from three years of age to the end of the reception year. In our school, most children join us after their third birthday where places are available. Key Stage 1 begins for our children at the beginning of Year 1. The Foundation Stage is important in its own right, and in preparing children for later schooling. The Early Learning Goals set out what is expected of most children by the end of the Foundation Stage.

The early years education we offer our children is based on the following principles:

- it builds on what our children already know and can do;
- it ensures that no child is excluded or disadvantaged;
- it offers a structure for learning that has a range of starting points, content that matches the needs of young children and activity that provides opportunities for learning both indoors and outdoors;
- it provides a rich and stimulating environment.

Aims of the Foundation Stage

The curriculum of the Foundation Stage underpins all future learning by supporting, fostering, promoting and developing children's:

- personal, social and emotional well-being;
- positive attitudes and dispositions towards their learning;
- social skills;
- attention skills and persistence;
- language and communication;
- reading and writing;
- mathematics;
- understanding the world;
- physical development;
- knowledge and skills in expressive arts and design.

Teaching and learning style

Our policy on teaching and learning defines the features of effective teaching and learning in our school. These features apply to teaching and learning in the Foundation Stage just as much as they do to the teaching in Key Stage 2.

The more general features of good practice in our school that relate to the Foundation Stage are:

- the partnership between teachers and parents, so that our children feel secure at school and develop a sense of well-being and achievement;
- the understanding that teachers have of how children develop and learn, and how this affects their teaching;

- the range of approaches used that provide first-hand experiences, give clear explanations, make appropriate interventions and extend and develop play and talk or other means of communication;
- the carefully planned curriculum that helps children achieve the Early Learning Goals by the end of the Foundation Stage;
- the provision for children to take part in activities that build on and extend their interests and develop their intellectual, physical, social and emotional abilities;
- the encouragement for children to communicate and talk about their learning, and to develop independence and self-management;
- the support for learning with appropriate and accessible indoor and outdoor space, facilities and equipment;
- the identification of the progress and future learning needs of children through observations, which are regularly shared with parents;
- the good relationships between our school and the settings that our children experience prior to joining our school;
- the clear aims for our work, and the regular monitoring to evaluate and improve what we do;
- the regular identification of training needs of all adults working within the Foundation Stage.

Play in the Foundation Stage

Through play our children explore and develop learning experiences, which help them make sense of the world. They practise and build up ideas, and learn how to control themselves and understand the need for rules. They have the opportunity to think creatively alongside other children as well as on their own. They communicate with others as they investigate and solve problems. They express fears or re-live anxious experiences in controlled and safe situations.

Inclusion in the Foundation Stage

In our school we believe that all our children matter. We give our children every opportunity to achieve their best. We do this by taking account of our children's range of life experiences when planning for their learning (see our policies on SEND and Equal Opportunities).

In the Foundation Stage we set realistic and challenging expectations that meet the needs of our children, so that most achieve the Early Learning Goals in the Prime Areas by the end of the stage. Some children progress beyond this point. We achieve this by planning to meet the needs of boys and girls, children with special educational needs, children who are more able, children with disabilities, children from all social and cultural backgrounds, children of different ethnic groups and those from diverse linguistic backgrounds.

We meet the needs of all our children through:

- planning opportunities that build upon and extend children's knowledge, experience and interests, and develop their self-esteem and confidence;
- using a wide range of teaching strategies based on children's learning needs;
- providing a wide range of opportunities to motivate and support children and to help them to learn effectively;

- providing a safe and supportive learning environment in which the contribution of all children is valued;
- using resources which reflect diversity and are free from discrimination and stereotyping;
- planning challenging activities for children whose ability and understanding are in advance of their language and communication skills;
- monitoring children's progress and taking action to provide support as necessary. This involves speech therapy for some of our children.

The Foundation Stage curriculum

The curriculum for the Foundation Stage in our school reflects the areas of learning identified in the Early Years Framework. These include; the prime areas; Personal, Social and Emotional, Communication for Language and Physical Development and the specific areas; Literacy, Mathematics, Understanding the World and Expressive Arts and Design. The experiences that our children meet often enable them to develop a number of competencies, skills and concepts across these areas of learning.

The Early Learning Goals and Early Outcomes provide the basis for planning throughout the Foundation Stage. Teachers use the National Curriculum where appropriate to support the planning for individual children. Our Long Term Plans show provision on offer in each of the areas of learning. Our medium term planning is completed half-terminly and identifies the intended learning, with outcomes, for children working towards the Early Learning Goals. Short Term Planning sets out weekly activities in each of the areas of learning.

Assessment

We make regular assessments of children's learning, and we use this information to ensure that future planning reflects identified needs. Assessment in the Foundation Stage takes the form of observation, and this involves the teacher and other adults as appropriate.

During the children's first half-term in the class, the teacher assesses the ability of each child using the LA's stranded sheets. We use this information to modify the teaching programme for individual children and groups of children. We discuss children's attainment with parents at the parental consultation meeting in the first half term.

The teacher completes the assessment again terminly and records each child's attainment level. The child's next teacher uses this information to make plans for the year ahead. Children' progress is shared during terminly parent's evening appointments.

Each pupil has a learning journal to show progress made throughout their time in the Foundation Stage. These learning journals contain a wide range of evidence that we share with parents at points throughout the year.

Parents receive an annual report that comments on each child's progress in each area of learning and their learning characteristics at the end of Reception and Nursery. It highlights the child's strengths and development needs and gives details of the child's general progress. We complete these in the Summer Term 2nd half.

The role of parents

We believe that all parents have an important role to play in the education of their child. We recognise the role that parents have played, and their future role, in educating the children. We do this through:

- talking to parents about their child before their child starts in our school;
- the teacher visits all children in their home setting prior to their starting nursery/school;
- the children have the opportunity to spend time with their teacher before starting school;
- inviting parents to an induction meeting at the start of the academic year
- offering parents regular opportunities to talk about their child's progress in our class both informally at the end of the day and at specific parents' evening appointments;
- parents receive a report on their child's attainment and progress termly with a longer report at the end of nursery and reception;
- having flexible admission arrangements that enable children and parents to become secure, and by allowing time to discuss each child's circumstances;
- arranging a range of activities throughout the year that encourage collaboration between child, school and parents;
- offering a range of activities that support the involvement of parents. We invite parents to curriculum evenings to discuss the kind of work that the children undertake in their class.

Resources

We plan a learning environment, both indoors and outdoors, that encourages a positive attitude to learning. We use materials and equipment that reflect both the community that the children come from and the wider world. We encourage the children to make their own selection of the activities on offer, as we believe that this encourages independent learning.
