

Tow Law Millennium Primary School Geography Topics

EYFS - Understanding the World

**Educational Programme**

Understanding the world involves guiding children to make sense of their physical world and their community through opportunities to explore, observe and find out about people, places, technology and the environment.

**Early Learning Goals**

Know about similarities and differences between themselves and others, and among families, communities and traditions.	Know about similarities and differences in relation to places, objects, materials and living things.	Talk about features of their own immediate environment and how environments might vary from one another.	Make observations of animals and plants and explain why some things occur and talk about changes.
